

TEAMWORK HAS A NEW HOME.

# Microsoft Teams for Education

Your new hub for conversations, files, assignments, and meetings. Designed for education – all in one place, wherever you go.

## One place for conversations, meetings, and files

Chat privately or as a group with threaded and contextual chat. Use your favorite gifs, stickers and emojis to add personality. Join meetings from anywhere with HD audio and video, all in one place, instead of using multiple apps.

## Collaborate with integrated Office 365 apps

Built in Office apps like Word, Excel, PowerPoint, and OneNote give you access to files and tools in one place, so you stay in your workflow. Collaborate in real-time using Office Online.

### Tailor your workspace

Use your favorite education apps, like Quizlet, Flipgrid, and Skooler within Teams. Get notifications and content from services of interest like Trello, GitHub, SurveyMonkey, and more.

### Work with confidence

Teams is integrated into Office 365, which means you can rely on the enterprise-grade security and compliance you need.

## Start using Teams
