

CONNECT. REACH. EMPOWER.

# Microsoft Teams for Education

Your new hub for conversations, files, assignments, and meetings. Designed for education – all in one place, wherever you go.

## Create collaborative classrooms

Engage students with rich conversations, video, and educational content. Deliver personalized learning with a customized assignment-management experience, built-in OneNote class notebooks, and integrated Office 365 apps.

## Always stay connected

Connect with others across your devices, including mobile and tablet. Chat one-on-one, or as a group with threaded and contextual chat. Keep up to date with your team with video meetings and chat.

## Streamline staff communication

Seamlessly share information with staff, educators, and school leaders – making cross-department collaboration easier in staff teams. Work together on school-wide initiatives in online meetings with HD video, VoIP, and dial-in audio conferencing options, or connect in 1:1 private or group chat.

## Come together in any team

Work together on any team-based or project-based activity, from student extracurricular groups to school-wide initiatives with staff and educators. Connect with anyone at your school to communicate and collaborate easily.
